iDialog / iDialog Plus
400-800 VA / 400-1600 VA
### single-phase

USB
UNIVERSAL SERIAL BUS

The **iDialog** UPS has been designed to protect PCs and critical peripherals in home and small office environments. iDialog is easy to install and provides powerful, economic protection for:

- IT equipment including PCs, Media Centers, PoE, VoIp and other such peripherals
- TVs, Home Cinemas, Satellite and Digital Terrestrial receivers, DVD readers and writers
- Modems and xDSL routers
- Small household appliances

CHARACTERISTICS
- Maximum power protection with **PowerShield[3]** UPS monitoring and shutdown software available for free download from our website www.riello-ups.com
- Suitable for installation on PC's running Windows Vista, 2003, XP, 2000, Me, 98; Linux, Mac OSX and the Sun Solaris operating system.
- Compact dimensions and ergonomic design: **iDialog** can be placed on a desk top or other convenient location, with easy to access connections and informative front panel.
- Front panel LCD display (**Plus** version only) providing status, load and battery information and LEDs (standard version).
- Silent running: **iDialog** can be used to protect other senstiive electronic devices including Home Cinemas, CD Writers, DVD players, Satellite and Digital Terrestrial receivers.
